GitHub Actions – Workflows

RBAC Role Request Workflow

✓ Passed

- validate — Check required fields & policy
- approve — Approval request sent
- provision — GitHub team assigned
- notify — E-mail notification sent

Secret Scanning

✓ No secrets found

- scan — CodeQL analysis completed
- report — Report generated

CI – Lint, Test, Build

● Running

- lint — ESLint passed
- test — 42/48 tests passed
- build — Building...
